PACIFIC CABLE CONDITIONS.

FULL TEXT OF TERMS WHICH THE PRESIDENT WOULD APPROVE.

From the Attorney-General's Conversation it Is Believed That the Conditions Will He Accepted-Mr. Mackay's Offer Is the Only Practicable One Mede.

OYSTER Bay, Aug. 9 .- The full text of the memorandum of conditions under which the President will consent to the authorization of a Pacific cable between the island possessions of the United States and the Pacific Coast, was made public ere this morning.

There appears to have been some little misunderstanding as to the force of this memorandum. It is not a contract. It is not a full and final concession to the Commercial Cable interests. It is simply a statement of the conditions which must be complied with before Executive consent will be given to any measure authorizing the laying of a cable.

In other words, the Executive says to the Commercial Cable Company, in effect: You have made a tangible and bona fide offer to lay a Pacific cable between the Pacific Coast and our Island possessions. Before the consent of this office is obtained, you must agree to the conditions of this

That the offer of Mr. Clark was not altogether an altruistic one is indicated by a etter which was sent to the President by Mr. Knox early this week. The letter also indicates that the Commercial people are not altogether reconciled to the conditions imposed by the Executive.

The President: I herewith return, as a ryour direction, letter of Thomas F. Clark, ated July 2s. addressed to Secretary of tate, and by him transmitted to you, and you to me with direction that answer be grashed you. ly you to me with direction that answer be furnished you. I inclose for your information a copy of the conditions upon which you were willing to consent to the laying of the Pacific cable Mr. Clark's letter seems predicated upon the theory that the Government did not unfer Clarks that the Government he theory that the Government herstand the full situation. You will observe that the conditions you have approved go much further than Mr. Clark's suggestion for the protection of the interests of the United States, and the commercial interests of its people as well.

Very respectfully.

(11) That the company shall agree to maintain an effective speed of transmission over the main cable route from Canfornia to Iuzon of not less than twenty-five words That the cable laid shall be of the best

er minute.

(12.) That the cable laid shall be of the best manufacture.

(13.) That ample repair service for said cable shall be maintained.

(14.) That the line shall be kept open for daily business and all messages, in the order of priority heretofore provided for, be transmitted according to the time of receipt.

(15.) That no liability shall be assumed by the Government of the United States by virtue of any control or censorship which it may exercise over said line in the event of war or civil disturbance.

(16.) By the grant of this permission the United States Covernment does not insure or indemnify said Commencial Pacific (able Company against any landing rights claimed to exist in favor of any company or companies in respect to any of the insular possessions of the United States.

(17.) That the consent hereby granted shall be subject to any future action by Congress or by the President affirming, revoking or modifying, wholly or in part, the said conditions and terms on which this consent is given. The acceptance of the terms and conditions upon which this consent is given. The acceptance of the teable company, under the company's seal, to be filed with the Postmaster-Ceneral of the United States, upon the filing of which foil access shall be revidenced by a copy of a resolution of the board of directors of the cable company, under the Scorteary control of the Chited States, upon the filing of which foil access shall be revidenced by a copy of the Scorteary of the Navy to all soundings, profiles and

any other helpful data in the possession or under the control of the Navy Department. From what Mr. Knox told the President is believed that the Pacific Commercia Cable Company will accept the President's conditions and that there will be no great conditions and that there will be no significantly in obtaining such Congressional or other consent as may be necessary before work is begun.

The building, occupied by Philip Hano & Co., manufacturers of carbon paper. is being shored up on account of an excavation at 806. The contract is in the hands of J. H. Drew & Bro. All day yesterday a gang of men under foreman Egan were hoisting beams and planks from the street into the building through a window on the third floor, which is about ten feet above the railroad tracks. The trains approach within six feet of the house line at that point.

The men raised each beam close to the wall and parallel to it until the end of the beam was above the window sill. Then they waited until a train had just passed to end in the beam through the window. They had generally five minutes between trains. When the accident occurred they had got nearly one-half of the beam in through the window and Fitzgibbon was rearranging the ropes to give it a last lift. At that moment a train came in sight unex-pectedly. It ran at full speed until it was within a few hungred feet of the beam the outer end of which was right in its the outer end of which was right in its way. The engineer then made a desperate but futile effort to prevent a collision.

The end of the beam just missed the engine and banted against the foremost car on a line with the windows. As car after car passed a she wer of glass fell to the street. At the window the beam pinched Fitzgibbon's right foot and crushed it. When the train had passed the beam swung back

and released him.

The train stopped about half a block to the south. The passengers got off. The engineer went back along the boardwalk and got the number of the house and then took his train on to Christopher street.

Fitzgibbon was taken to St. Vincent's

A HUGGER IN BLOOMFIELD. Police Looking for a Fellow Who Attacks

BLOOMFIELD, N. J., Aug. 9 .- A "Jack the Hugger" is at large in Bloomfield and Chief of Police L. M. Collins and his men have been hunting the town for him. Last night the fellow grabbed Miss A. Cook, a young society woman, at the corner of Bloomfield evenue and Orange street, and attempted to embrace her.

Miss Cook screamed and a woman who

Miss Cook screamed and a woman who was with her hit the fellow on the head with a parasol. Edward E. Baldwin, who had heard the women scream, came up and with others joined in a chase for the hugger, who ran up Bloomfield avenue into a cornfield.

He succeeded in eluding his pursuers. This is the fourth time in the last two days that women have been annoyed by such a fellow, a good description of whom has been furnished to the police. They expect to make an arrest scon.

On one occasion the hugger picked up a little girl walking in the street with her mother, kissed the little one and ran away.
